

WASTE
AUTHORITY

WA...TOO GOOD TO WASTE

Strategic Waste Infrastructure Planning Project (SWIP)

Waste and recycling
infrastructure plan
getting it together

Four elements

1. Planning and Approvals
2. Facilities and Sites
3. Technology
4. Governance and Funding

Waste and recycling infrastructure plan for Perth and Peel

For the draft SWIPWG report

1. Compile “findings” from each element
2. Develop up to four holistic options to present to the Waste Authority

Waste and recycling infrastructure plan for Perth and Peel

For each option

1. Identify potential locations
2. Determine additional infrastructure required and allocate to locations
3. Financial analysis
4. Select governance and funding model with highest probability to deliver infrastructure

Timing

- draft report to SWIPWG – late January 2014
- draft report to Waste Authority – February/March 2014
- draft report to Minister – June 2014
